

巴塞尔公约亚洲太平洋地区培训和技术转让区域中心
BASEL CONVENTION REGIONAL CENTRE FOR TRAINING AND TECHNOLOGY TRANSFER FOR THE ASIA AND PACIFIC

Ref.: 03-2014

21 November, 2014

Subject: *Apply to Participate in the Mercury Supply and Storage Partnership Area, UNEP Global Mercury Partnership from Basel Convention Regional Centre for Asia and the Pacific*

To whom it may concern,

I am pleased to receive the information of mercury supply and storage partnership area. On behalf of Basel Convention Regional Center for Asia and the Pacific (BCRC China), I would like to send this letter to you.

BCRC China is one of the fourteen Basel Convention Regional and Coordinating Centers in the world, and it is also one of the sixteen regional centers of Stockholm Convention. Till now, BCRC-China has achieved a great outcome in waste and chemical management, and willing to cooperate and coordinate with other related international organizations to promote the implementation of Basel Convention and synergy with Rotterdam, Stockholm and Minimata Conventions. At present, the project titled as "China Fluorescent Lamps collection and treatment demonstration project (Project CFL)", under EU-China Environmental Sustainable Program, is being conducted by BCRC China with the other three partners with the financial support of EU from 2013-2016, with the aims to improve the policy environment in China and contribute to sustainable heavy metal pollution prevention and control in China. Besides, a few projects on mercury and waste containing mercury have been implemented by BCRC China.

BCRC-China is located in Tsinghua University, Beijing, and hosted by Chinese government. As one important regional organization on waste and chemicals in Asia-Pacific region and the excellent academic research platform, BCRC China would like to participate in the Mercury Supply and Storage Partnership Area, UNEP Global Mercury Partnership. BCRC-China will make efforts to support and implement the related activities. I believe it's participation will be helpful to solve the mercury problems and promote the development of the partnership area.
