

Fourth Annual Subcommittee meeting of the Committee of Permanent Representatives  
6-9 March 2017  
Gigiri, UN Office at Nairobi  
Conference Room 2

### **Agenda Item 3**

#### **Note on the UN Environment funding strategy**

Paragraph 20 of UN Environment Assembly resolution 2/19:

Encourages the Executive Director, in close consultation with the Committee of Permanent Representatives, to design and implement a resource mobilization strategy with the priority to broaden the contributor base from Member States as well as other partners so as to improve the adequacy and predictability of resources.

As a first step in our consultations with the Committee of Permanent Representatives, the UN Environment secretariat will make a presentation at the Fourth Annual Subcommittee meeting of the Committee of Permanent Representatives outlining our current Funding Strategy, as well as ideas for future resource mobilization efforts and related challenges. We will be asking Committee Members to provide, after the meeting, their comments on the current Global Funding Strategy, as well as their ideas for enhancing our resource mobilization efforts and overcoming the challenges.

Attached for ease of reference is the current Funding Strategy, which was finalized in 2014 after extensive consultations with Member States. We would also welcome any comments Committee Members have on this current Funding Strategy in advance of the Subcommittee meeting presentation.
