

Supported by:

Federal Ministry for the Environment, Nature Conservation and Nuclear Safety

based on a decision of the Parliament of the Federal Republic of Germany

You're invited to a

Promoting Low Carbon Transport in Indian Cities event!

UNEP Transport Unit in Kenya, UNEP Risø Centre in Denmark and partners in India are supporting a low carbon transport pathway in India. The project is funded under the International Climate Initiative of the German Government, and is designed in line with India's National Action Plan on Climate Change (NAPCC). This project aims to address transportation growth, development agenda and climate change issues in an integrated manner by catalyzing the development of a Transport Action Plan at the national level and Low Carbon Mobility plans at the cities level.

Key local partners include the Indian Institute of Management, Ahmedabad, the Indian Institute of Technology, Delhi and CEPT University, Ahmedabad. The cooperation between the Government of India, Indian institutions, UNEP, and the Government of Germany has aimed to assist in the development of a low carbon transport system, and to showcase best practices within India and for other developing countries.

World Urban Forum

Wednesday, 9 April 2014

Please join us at the UNEP/Promoting Low Carbon Transport in India event at this year's WUF 7 in Medellín, Columbia.

The project is assisting cities in India to craft sustainable, inclusive and low carbon transport systems through capacity building of consultants and stakeholders in cities and preparation of comprehensive mobility plans (CMP). Project partners and consultants will present outcomes from work in cities and the revised CMP toolkit, which was developed for guidance to cities in India.

When: 9 April 2014

Where:

Agora Room, City Changer Room @ UN Habitat Pavilion

Programme:

4:00 - 6:00 pm

Presentation of Urban Mobility Scenarios for India and case study from Rajkot city followed by a panel discussion on the question "Can we achieve development goals and social inclusivity together with climate change goals?"

6:00 pm

Networking and Snacks
