SOCIAL MEDIA OVERVIEW

KEY FACTS

Total followers across all platforms
3,577,264

Compared to previous month 0.8% 

Highest follower growth this month was seen on Russian Facebook at 27%, Instagram at 21% , ROWA and Spanish Facebook at 7.5% and Chinese WeChat at 6.4%.

Follower growth also seen on French Twitter, English Facebook, Weibo and YouTube.

English		2.9%	221,500
French		2.5%	11,163
Spanish		7.5%	4,653
Russian		22%	2,359
Tunza		0.5%	11,858
ROWA		7.5%	1,524

English		2.4%	496,962
French		6.4%	5,966
Spanish		4.2%	3,098
Russian		12%	4,912
ROWA		3.4%	6,026

		2.4%	4,842
--	---	------	-------

		21%	37,331
--	---	-----	--------

WeChat		6.4%	15,000
RenRen		0.001%	545,866
QQ		0.04%	2,099,725
Weibo		2.4%	104,479

TWITTER

This month, UNEP's Twitter account recorded a 2.4% increase in followers from 485,307 to 496,982. This growth – a pick up percentage-wise compared to last month's - is mainly attributed to an increase in social media activities given the onset of UN observance days which have prompted activity particularly among UN accounts that are UNEP's most prolific, high-follower engagers. During this period UNEP's twitter account increased it's activity for the observance of several UN days in succession including the 2016 World Wildlife Day, World Water Day, International Day of Forests and WWF's Earth Hour. UNEP continues to engage its audience successfully with polls.

In addition to the UNEP's audience, review of analytics data informed that UNEP's Twitter audience is likely to engage with positive and informative news on the Paris Agreement and news on renewables and action-oriented polls. UNEP's Twitter audience is also likely to respond to video content calling for action on the environment and climate change.

What worked:

- + News on renewables
- + Polls
- + News on climate change
- + #DidYouKnow tweets
- + Campaigns on official UN Observance Days

What did not work:

- + Text-only Tweets
- + Images of press conferences

FACEBOOK

This month Facebook account recorded a 2.9% increase in followers bringing the total number of fans from 215,359 to 221,500. This continued, strong increase in numbers is mainly attributed to greater use of video content to enhance story telling and engaging and inspiring posts with a human angle. Implementation of the new approach featuring more interactive posts with news and videos as well as participation in campaigns to present an awareness of the environmental state of the world continue to amplify user engagement.

Creative uses of the platform to fuel post sharing is a contributor to the growth of UNEP's Facebook audience and development of highly sharable, non event-related content will be key to continue such growth. In the future, new Facebook page content delivery options, such as slide shows, will be used innovatively to increase engagement and reach on a greater scale.

What worked:

- + Videos
- + News on renewables
- + News on Health and Environment
- + Sustainable Development Goals posts

What did not work:

- + Posts without strong accompanying images
- + News reporting that does not add value through the most sharable aspects of news/reports
- + Updates on UNEP's work that lack a "human" side

CHINESE CONTENT HIGHLIGHTS

WHAT WORKED

- Li Bingbing's Earth Hour Editorial.
- WWD 2016 social media campaign #InOurHands, endorsed by a dozen of Chinese celebrities and movie producers that are friends with UNEP.
- Mercury story came as second most popular WeChat story.
- 'How Sustainable Development Can Change the World' was favoured by a great number of fans.

Fans on **WeChat** and **Sina Weibo** continue to rise. Slight decrease in **QQ** audience. This is because social media users continue to move to WeChat.

RenRen audience numbers continue to drop due to decrease in use of platform by users as well as popularity. The possibility that RenRen might be phased out as a Chinese social media platform remains.

19 March 2016

UNEP GWA Li Bingbing calls for sustainable lifestyles and an end to illegal wildlife products during the Earth Hour Beijing event, co-organized by WWF and UNEP.

WEB

Bounce Rate: The percentage of visitors to a particular website who navigate away from the site after viewing only one page.

Direct Traffic: Represents traffic to the web site with no referrer as one of the following: 1) the visitor typed the domain name directly into their browser, 2) the visitor bookmarked the site, 3) the visitor clicked on an email, shortcut, or other direct link

Page Views: An instance of an Internet user visiting a particular page on a website.

Referring Domain: A web site that refers a visitor to your site by linking to it.

Visitors: The number of inferred individual people (filtered for spiders and robots), within a designated reporting timeframe, with activity consisting of one or more visits to a site.

Visits: An instance of an Internet user visiting a particular page on a website.

SOCIAL MEDIA

Engagement Rate: Is the percentage of people who saw a post and liked, shared, clicked or commented on it. Monthly engagement rate can be used as a benchmark to measure how posts perform on a daily/weekly basis.

Eng.Rate = (Engaged users/Reach) *100

Fans: Users who "like" a particular page on Facebook.

Followers: Users who have subscribed to Twitter/Instagram updates and will see your Tweets show up in their news stream.

Replies: Replies are mentions that start with the @ handle of a specific user you're engaging.

Retweet: A retweet is when a user shares a post of another user with their followers. Twitter enables this action with their "retweet" button.

Impressions: Based on Twitter's definition, the number of people who saw a tweet on the platform.

Reach: Is the total number of estimated unique users that saw each post by UNEP.

Tweet: Any message posted on Twitter that is displayed to followers.
