

WOMEN MAJOR GROUPS STATEMENT read on Friday 10th March 2017 at the 138th meeting of CPR.

WMG wish to appreciate the Chair and the Secretariat on conducting successful meetings – 4th Annual Subcommittee meeting of CPR and 138th meeting of CPR - and wish you all the best in your future endeavors.

We wish to recognize the presence of the UN Secretary General to the 4th Annual Subcommittee meeting of CPR, especially being on the International Women's Day. This was significant and symbolic to the Women Major Groups. We are also pleased that the UN Secretary General advised on the need to broaden the theme for UNEA3.

The WMGs will continue to support the UNEP Secretariat and will share simple technologies that can be used by the communities in order to combat indoor pollution.

We also request member states to commit to their financial obligations as this will ensure a successful UNEA3

WMG want to reassure the UNEP Secretariat of our participation in future CPR meetings
