

# Meeting of Global Alliance to Eliminate Lead in Paint Advisory Council and UN Environment Directors

---

## Role of NCPCs in promoting BAT/BEP

Ms. Elisa Tonda  
Head, Consumption and Production Unit  
Economy Division, UN Environment

---

December 6<sup>th</sup> 2017, Nairobi

# Resource Efficient and Cleaner Production (RECP)

---

**RECP addresses the 3 sustainability dimensions**

**Increase Productivity**

**Reduce natural resource  
use and emissions**

**Improve well-being  
of workers and communities**

---

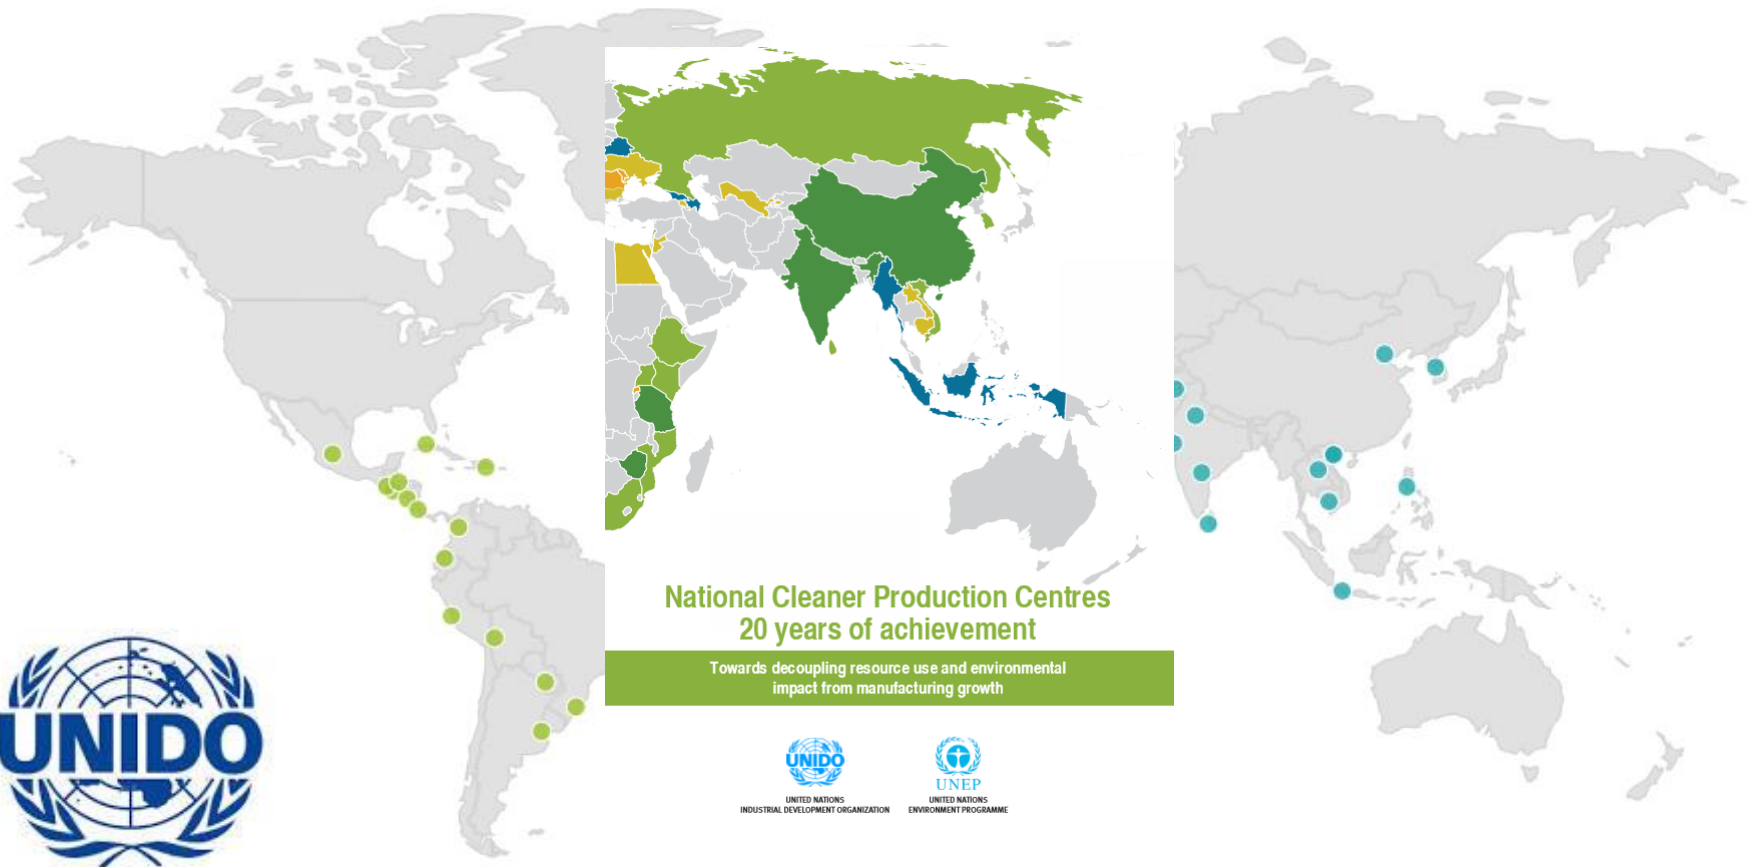

# The Resource Efficient and Cleaner Production network

## RECPnet

**RECPnet**

- Africa Region ●
- Arab Region ●
- Asia Pacific Region ●
- EECCA Region ●
- Latin America & Caribbean Region ●
  
- Regular Member
- Observer Member
- Associate Member

# Resource Efficient and Cleaner Production network, RECPnet

---

## The network's strategy to promote RECP, accomplished through:

- Raise awareness of RECP benefits and advantages
- Demonstrate the environmental, financial and social benefits of RECP through in-plant assessments and demonstration projects.
- Help obtain financing for RECP.
- Provide policy advice to national and local governments
- Disseminate technical information.

## Value that RECPnet brings to our work:

- *Effective implementation arm*
- *Connecting the partners across value chain*
- *A strong voice for SMEs*
- *Multiplier role*
- *South-to-South Cooperation*

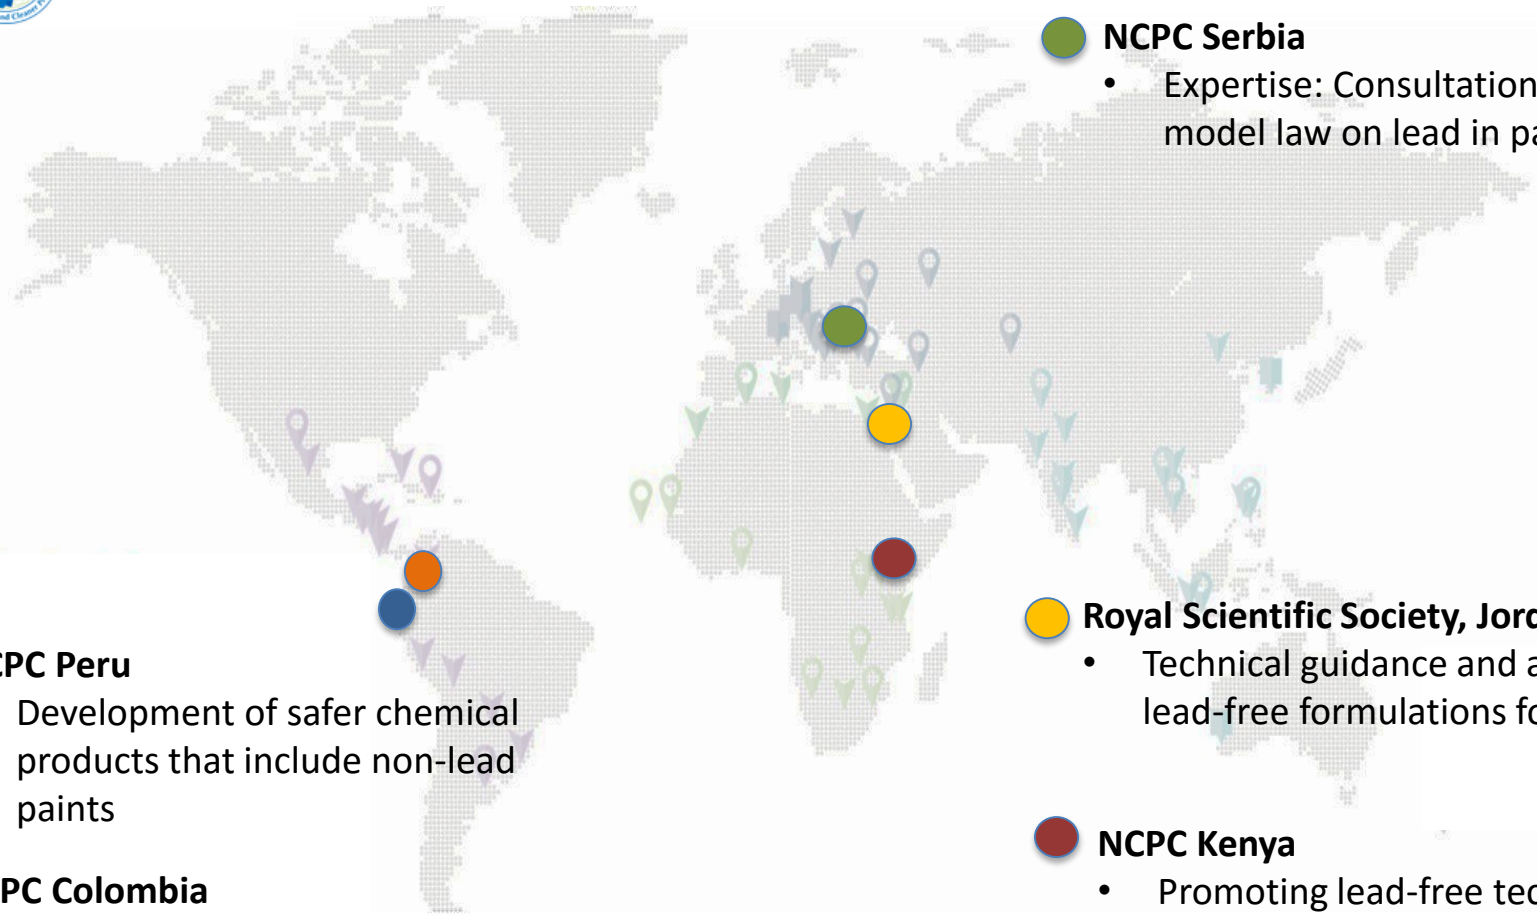

RECPnet valuable partner for governments and industries on:

- 2030 Agenda for Sustainable Development, including Sustainable Development Goals
  - \* **SDG 12:** Responsible Consumption and Production
  - \* **SDG 8:** Decent work and economic growth
  - \* **SDG 9:** Industry, Innovation and Infrastructure
  - \* **SDG 17:** Revitalize the global partnership for sustainable development

# RECPnet work on lead in paint

RECPnet

## ● NCPC Serbia

- Expertise: Consultation on draft model law on lead in paints for EPA

## ● Royal Scientific Society, Jordan

- Technical guidance and assessment of lead-free formulations for paints

## ● NCPC Kenya

- Promoting lead-free technologies for paints production
- Working with government to influence policies and define regulations for paints

## ● NCPC Peru

- Development of safer chemical products that include non-lead paints

## ● NCPC Colombia

- Included sustainability criteria for lead in paints below 90ppm, within framework of the country's Sustainable Public Procurement program

# RECPnet Role in Promoting BAT/BEP

---

- RECPnet strong intermediary between industry and governments, promoting national engagement and cooperation
- Provide high-quality technical and advisory services, and develop capacity of governments, industry and communities in their regions
- Engage in policy mainstreaming and advocacy to advice, develop, implement and monitor
- Awareness raising campaigns among relevant stakeholders
- Implementation, dissemination and replication of solutions in industry and businesses for replacement of lead in paint

---

**Thank you**
