## Presentation on:

# COMPONENT III

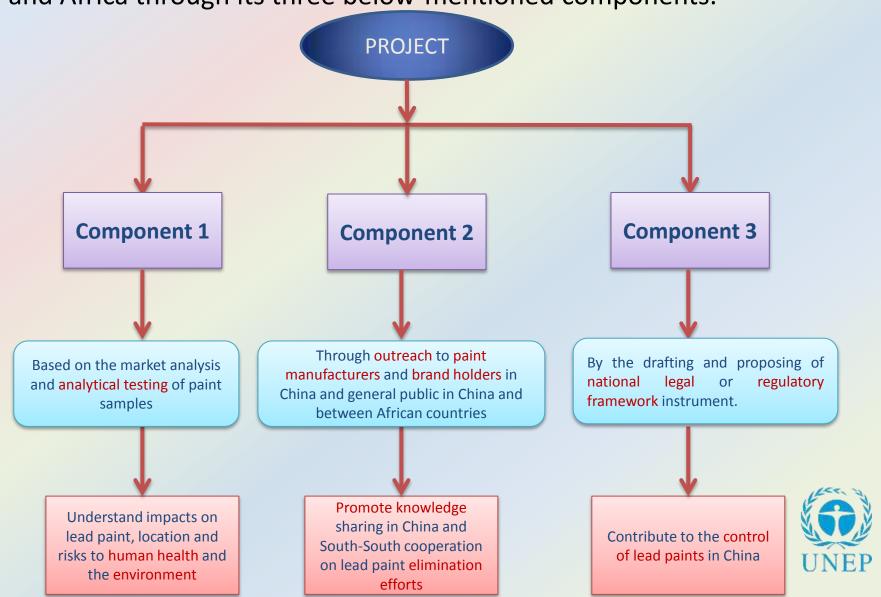

Inception Workshop on: Promoting the elimination of the use of lead paints in China and Africa

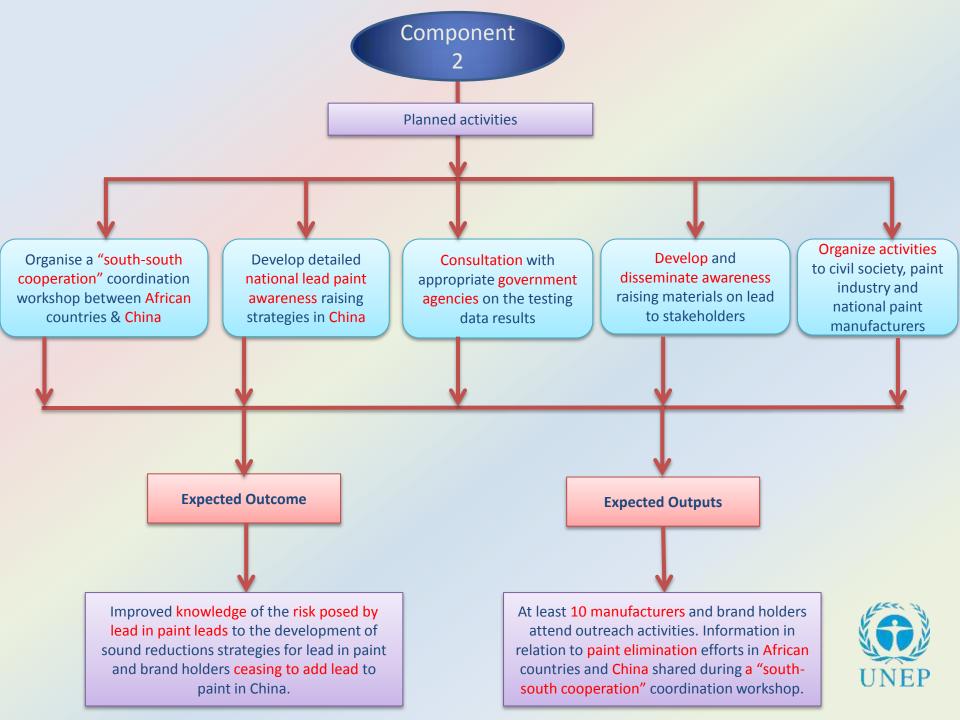

Beijing, 26th April 2016
Presented by UNEP

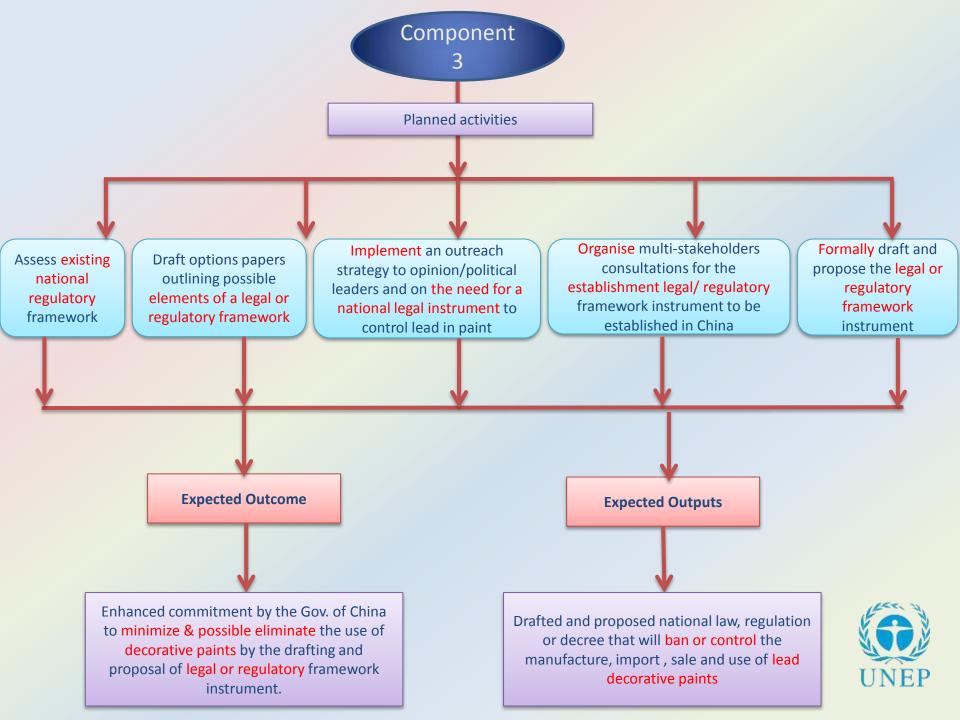

## Key components of this project

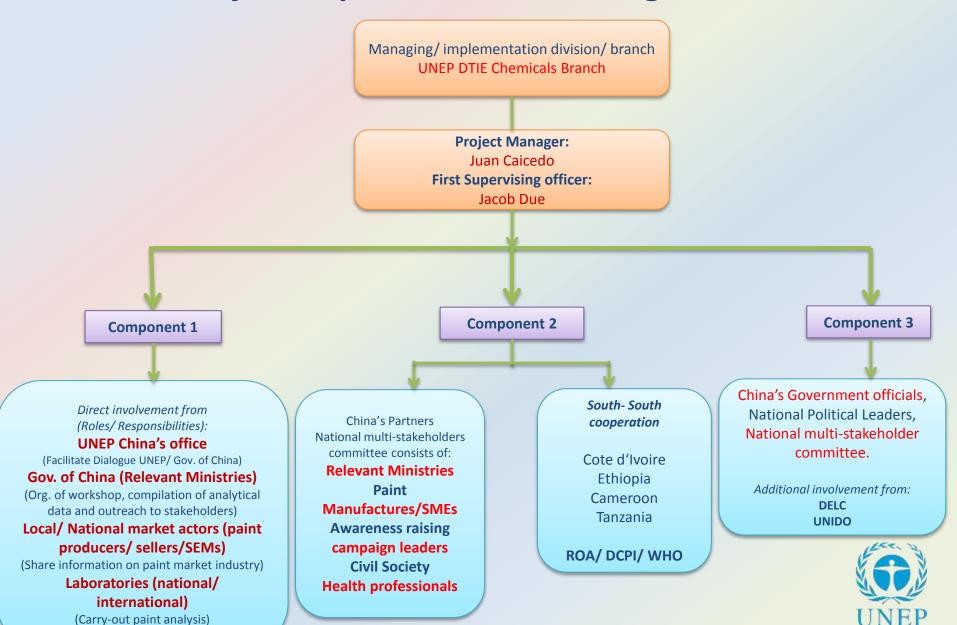

The project promotes the elimination of the use of lead paints in China and Africa through its three below-mentioned components.

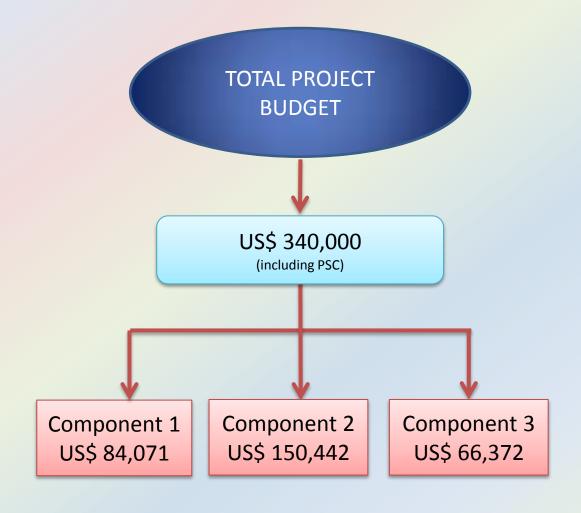

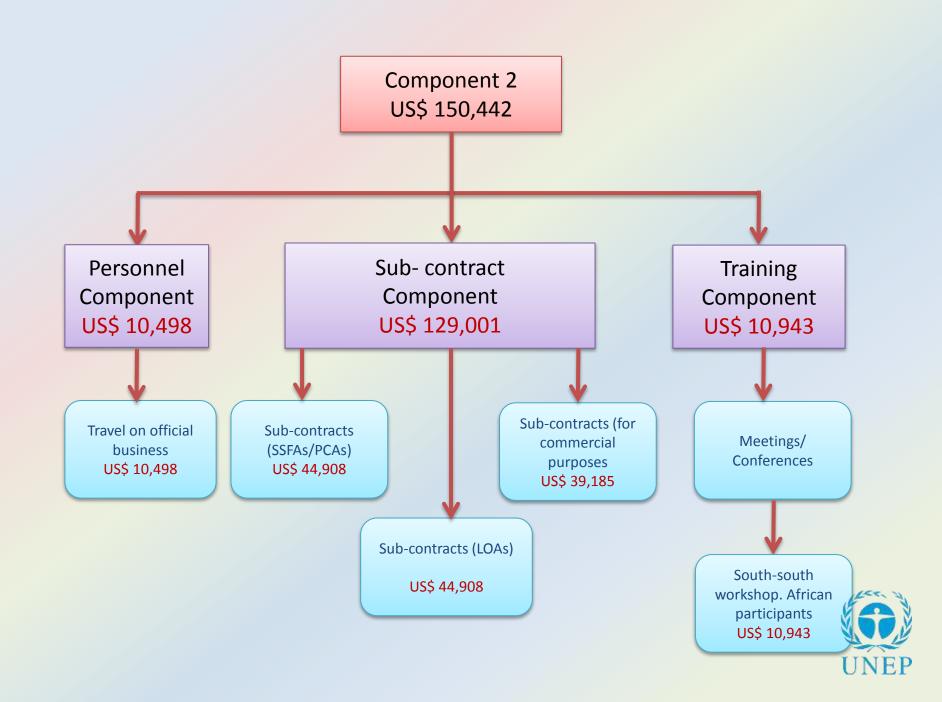

## **Project Implementation Arrangements**

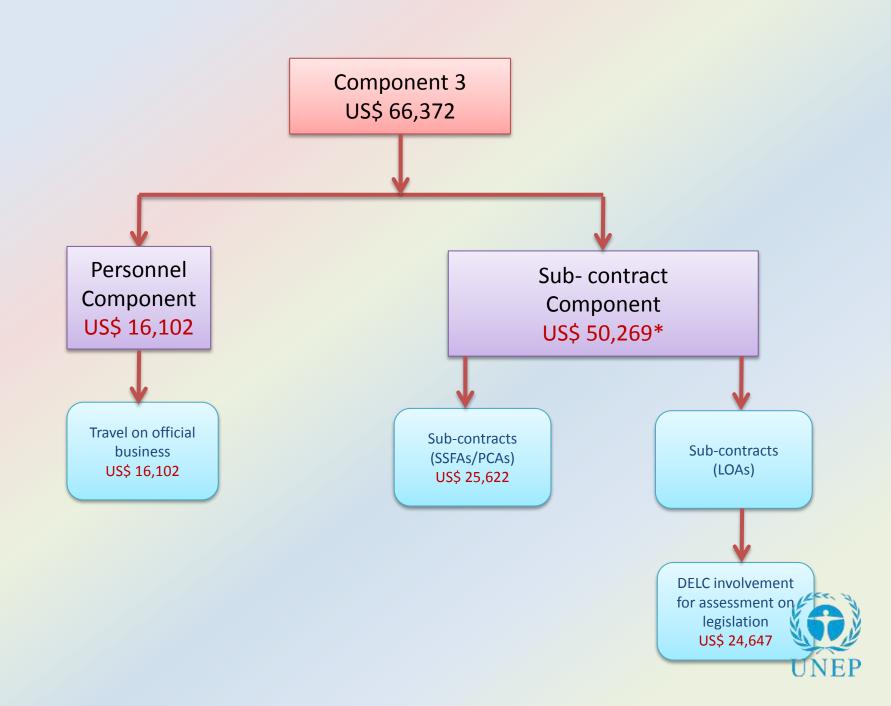

## **Resource Mobilization**

## **Project Output: Component 2**

#### **COMPONENT 2**

#### Promote knowledge sharing in:

- ✓ China and South-South cooperation on lead paint elimination efforts through
- ✓ outreach to paint manufacturers and
  - ✓ brand holders in China and
  - ✓ general public in China and
  - ✓ between African countries.

#### **INDICATORS**

Number of awareness raising and outreach activities organized for paint manufacturers and brand holders in China

✓ (Baseline: 0. Target: 10 paint manufacturers and brand holders activities organized)

Number of South-South knowledge sharing events organised

✓ (Baseline: 0. Target: 1 "South-South cooperation" coordination workshop)

Number of African national market survey reports

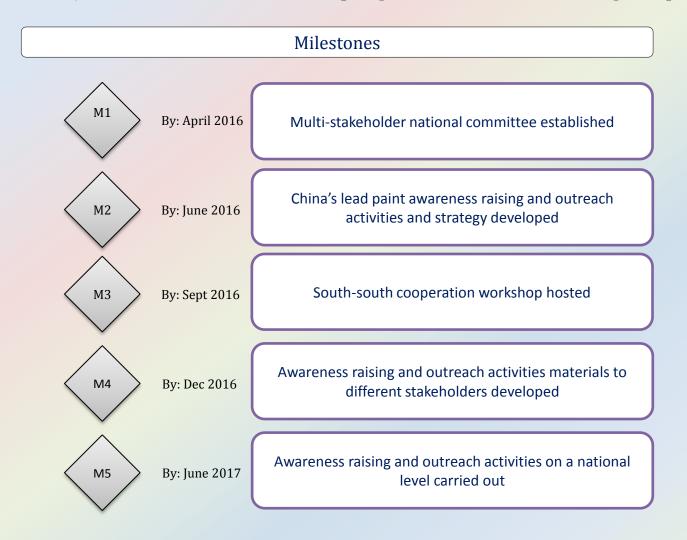

✓ (Baseline: 0. Target: 4 African national market survey reports shared during the workshop)

#### MEANS OF VERIFICATION

- ✓ South-south cooperation coordination workshop and its report
- ✓ Assessment of existing national legal or regulatory frameworks in African countries (information sharing at the workshop)
  - ✓ Progress reports
- ✓ Detailed national lead paint awareness raising strategies (press releases, media report, etc)
  - ✓ Consultations with government agencies from relevant Ministries (Environment, Health, Industry, etc) and with IGOs partners
- ✓ Number of additional partners of the Global Alliance enrolled
- ✓ African national market survey reports

### Component 2:

Project milestones that show progress towards achieving the project outcome.

## **Project Output: Component 3**

#### **COMPONENT 2**

Contribute to the control of lead paints in China by the drafting and proposing of national legal or regulatory framework instrument

#### **INDICATORS**

Number of Ministry participating in the assessment of existing national legal or regulatory framework instruments to control lead paints and its promotion (Baseline: 0, Target: At least 2 Ministries).

Number of consultations with stakeholders and government conducted
(Baseline: 0. Target: At least 4 consultations taken place during the timeframe of the current project component 3)

Number of option papers drafted in relation to the national legal or regulatory framework instrument

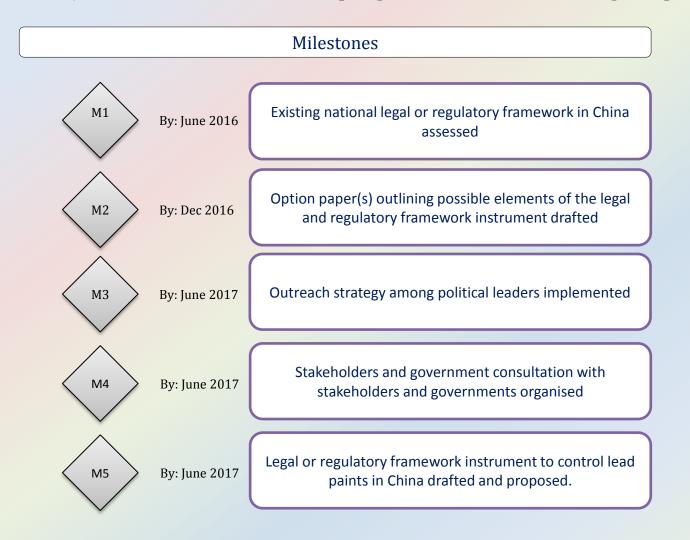

(Baseline: 0. Target: At least two draft option paper drafted and proposed)

#### **MEANS OF VERIFICATION**

- ✓ Assessment of existing national legal or regulatory framework
- ✓ Legal or regulatory instruments to control lead in paint (drafted, reviewed, adopted, enforced or formally proposed)
  - ✓ Progress reports
  - ✓ Stakeholders and government consultations report

### Component 3:

Project milestones that show progress towards achieving the project outcome.
