

Dear colleagues

Answering to your mail send on 10/08/2018 about "draft outline document for the ministerial document of the 2019 environment Assembly" The Centre international de droit comparé de l'environnement " (CIDCE) as international NGO is pleased to suggest to add a new point in Main priority 1 written as such:

" Design legal indicators for the environment to objectively assess, qualitatively and quantitatively, the existence, substance, procedure and enforcement of environmental law at international , regional , national and local level".

I send several documents explaining why it is necessary to introduce legal indicators as an innovative tool of evaluation of the effectiveness of SDG's and all environmental policy

Best regards

Please inform us of the good reception of this proposal
