

REPORT

on the activities devoted to the International Day for the Preservation of the Ozone Layer- 16 September, 2016

In honor of the International Day for the Preservation of the Ozone Layer, 16th of September, the representatives of National Ozone Unit (NOU), under the State Committee on Environment Protection and Land Resources of Turkmenistan organized activities with the theme of the year: “*Ozone and climate: Restored by a world united*”, with the tagline: “*Working towards reducing global-warming HFCs under the Montreal Protocol*” and relations “Withdrawal of hydrochlorofluorocarbons (HCFCs) - since it is a unique, dual opportunity to strengthen action to protect the ozone layer and to stop climate change” in the several educational institutions – schools and professional schools in Ashgabat city and importers.

The main aim of the action was to raise awareness on the preservation of the Earth's ozone layer and climate change among the public and professionals involved in the service and repair of refrigeration equipment.

The information campaign started from 3 September to raise the public awareness among the schoolchildren. In the educational institutions by the representatives of the NOU carried out the lectures, showing the movie, cartoon about problems of the Ozone Layer and Climate change.

The campaign included presentations for teachers and students. Pupils and students in an interactive way it was discussed about the harmful and beneficial effects of ultraviolet radiation, methods of protection from the harmful effects of UV radiation.

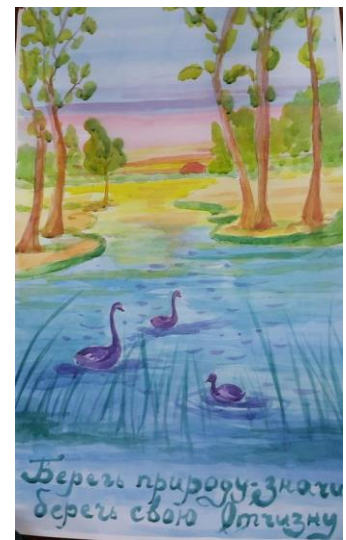

In the secondary school №12 was announced a competition for the best poster and the best poem on the Preservation of the Ozone layer, human protection from UV radiation and climate change among of the 6, 10 and 11 classes.

On the September 15 the posters and poems were collected and they were assessed by juries.

On the September 16 in the secondary school №12 has been celebrate Ozone day and announced the winners of the best posters and poems. The winners of 1, 2, 3 prizes were rewarded Diplomas of I, II and III degrees and gifts, prizes. Each participant was awarded by the Certificate of Participation. This activity attended around 1200 schools children.

Afternoon on the September 16 at the Ozone office was meeting with 21 students of the Tourism-business vocational school of The State Committee for Tourism of

Turkmenistan. There has been showed the movie and was given brief information about Ozone Layer and the UV radiation influence of health, animals and plants, the value of protecting the environment and at the end they have received the printed information materials about Ozone layer and T-shirts with theme of this year.

For the International Day for the Preservation of the Ozone Layer has been prepared the banner with the theme of this year and during the awareness campaign for dissemination among the school kids and students, stakeholders the posters in Turkmen; English, Russian languages have been printed.

During the campaign the UN Secretary-General Ban Ki-moon's message for the International Day for the Preservation of the Ozone Layer has been distributed.
