# Event App for the Third meeting of the Ad Hoc Open-Ended Expert Group on Marine Litter and Microplastics

Purpose

The app has been developed to enhance real-time communication and information sharing during the whole period of the meeting. This will include real-time updates that will help all delegates obtain information about meeting sessions, meeting venues and availability of documents.

The App will enable delegates to plan for the meetings by adding the scheduled meetings to their calendars as well as be able to sign-up for the respective Breakout Group Sessions they would like to attend.

It will also have all the details about meeting room locations (maps), all pre-session and in-session documents as well as all useful information delegates need to be aware of.

NOTE: We encourage all delegates to sign up for the app to enable them to access all features. The sign up process is simple and requires you to enter your email, after which a code will be sent to this email which you must enter into the app to complete the sign up process.

If you already have the UNEP events app on your phone from previous UNEA's or other UNEP related meetings, you can find the specific page for the Third meeting of the Ad hoc open ended expert group on the UNEP events app's main page, and it will ask you to download a package of information relating to the AHEG meeting. Once the download is complete, the app will redirect you to a landing page exclusively for the AHEG meeting.

When prompted, be sure to allow the app to send you notifications, as many logistical updates may be communicated this way from the Secretariat.

How to download the App

Using the previously downloaded UNEP Events App

1. Open the UNEP Events App from your list of Applications
2. Click the green arrow to download the AHEG App labelled: *Third meeting of the Ad Hoc Open-Ended Expert Group on Marine Litter and Microplastics.*
3. Proceed with the simple sign up process to access all the features of the app.

Android

1. Go to the Google Play app

2. Search for UN Environment Events and click on install.

3. Choose AHEG and click on the green download arrow
4. The AHEG App will be downloaded after a few seconds. When prompted to allow push notifications, choose OK.
5. On the Log in page, follow the short steps on the screen

iOS

1. Go to the Apple App Store Play app

2. Search for UN Environment Events and click on install.

3. Choose the AHEG meeting and click on the green download arrow
4. The AHEG meeting App will be downloaded after a few seconds. When prompted to allow push notifications, choose OK.
5. On the Log in page, follow the short steps on the screen
