## Introduction

This bibliography is the second in the series devoted to the documents produced by the United Nations Environment Programme. Like the first bibliography, it serves as a user's guide to the holdings of the UNEP Library and secondly, it is hoped that it will stimulate interest in the work of the United Nations Environment Programme on the part of interested organizations and individuals.

Following the United Nations Conference on the Human Environment held in Stockholm in June of 1972, the General Assembly received the report of the "Stockholm" Conference and by Resolution 2997 (xxvii) prescribed the institutional arrangements needed to give effect to the conference's recommendations. Amongst these was the establishment of a 58 member Governing Council comprised of representatives from member states. The Governing Council was to meet annually and provide general policy guidance for the direction and co-ordination of environmental programmes within the United Nations.

The documents described in this bibliography are those documents produced for or during the annual sessions of the UNEP Governing Council. It includes all documents issued for the first through eleventh sessions as well as the 1982 session of a special character held to commemorate the 10th anniversary of the convening of the United Nations Conference on the Human Environment.

Documents are grouped chronologically according to the meeting for which they were prepared. Main documents are listed first and secondary ones follow. Each document is identified by a document symbol composed of letters and numbers separated by oblique strokes. The document symbols provided not only identify each document but also give information on its origins and nature. All symbols begin with a letter or series of letters identifying the body or organization under whose authority the document was issued, e.g. UNEP/GC.9/- the ninth session of the UNEP Governing Council. The secondary elements of the symbol give further information. The ones used most frequently are the following:

1. Elements denoting a subsidiary organ. As it is often essential to establish subsidiary organs such as committees, working groups, etc. to carry out effectively the work during a meeting, the documents prepared by these organs are identified by the use of letters or numbers. Thus the SC.I following the basic document symbol UNEP/GC.9/SC.I indicates the first sessional committee of the ninth session of UNEP Governing Council.

2. Elements denoting modifications of a text of a document.

Modifications are often made to the text of a particular document during the course of a meeting. These modifications are accomplished by means of the following:

Addendum	An addition to the text of a document, e.g. <u>UNEP/GC.9/2/Add.1</u>
Amendment	An alteration of a portion of an adopted text, e.g. <u>UNEP/GC.9/2/Amend.1</u>
Corrigendum	A modification of any specific part of an existing document to correct errors, revise wording or reorganize the text, whether for substantive or technical reasons, e.g. <u>UNEP/GC.9/6/Corr.1</u>
Revision	A new text which supersedes or replaces the entire text of a previously issued document for substantive or technical reasons, e.g. <u>UNEP/GC.9/14/Rev.1</u>
Supplement	Used to provide updated information. Usually, a supplement provides a major addition of information to an existing document, e.g. <u>UNEP/GC.9/5/Supplement 1</u>

3. Elements denoting distribution category. Basic documents, reports, etc. are given a distribution status of "General" which means that these documents are given as wide a distribution as is appropriate to the meeting concerned. Some documents, however, which are of a more temporary nature are given only a limited distribution to those attending the meeting. Such documents are identified by the letter "L", e.g. UNEP/GC.9/L.3.

4. Elements denoting the nature of a document. In this bibliography two types of documents bear these elements. First are the information series documents pertinent in subject content to the topics being discussed but not part of the deliberative process, e.g. UNEP/GC.9/Inf.1. The second are the conference room papers which are informal documents issued for discussion purposes, e.g. UNEP/GC.9/SC.I/CRP.7.

The languages in which the documents were originally written or into which they have been translated are noted following the title of the document. Thus, a = Arabic, c = Chinese, e = English, f = French, r = Russian and s = Spanish.

At the end of the bibliography there appears a listing of a special series of documents which bear the symbol UNEP/GC/INFORMATION/-. These documents are issued at the time of Governing Council sessions for the information of participants but do not necessarily form part of the documentation of the session itself. When necessary they are updated by means of supplements.
