

Overview of the Global Alliance to Eliminate Lead Paint (Lead Paint Alliance)

Central and Eastern Europe and Central Asia Regional Workshop
on the Establishment of Legal Limits on Lead in Paint
19-20 May 2016, Chişinău, Republic of Moldova

Mijke Hertoghs
Programme Officer and Regional Coordinator
Chemicals and Waste
UNEP Regional Office for Europe

About the Lead Paint Alliance

- A voluntary partnership (2009)
- Jointly led by WHO and UNEP
- Supported by multi-sector UNEP/WHO Advisory Group
- GOVs, IGOs, NGOs, Industry, and Academic institutions

Goal of the Lead Paint Alliance

GOAL

To prevent children's exposure to paints containing lead and to minimize occupational exposures to lead paint

By 2020

- All countries have adopted **legally binding laws**
- All manufacturers have **eliminated use of added lead** in priority areas
- 40 countries with national **awareness days** for prevention of lead poisoning with emphasis on risks of lead paint
- 70 **partners** participating

UNEP/WHO Advisory Group for the Lead Paint Alliance

- United Nations Environment Programme (UNEP)
- World Health Organization (WHO)
- U.S. EPA (Advisory Group Chair)
- Colombia, Ministry of Environment
- Kenya, Ministry of Industrialization and Enterprise Development
- Moldova, Ministry of Health
- Thailand, Ministry of Health
- United Nations Industrial Development Organization (UNIDO)
- AkzoNobel – paint manufacturer
- International Paint and Printers Ink Council (IPPIC)
- Health and Environment Alliance (HEAL)
- IPEN – global network of NGOs
- European Commission (Observer/co-opted member)

Current Status and Accomplishments

- 3 Global Meetings (2010, 2012, and 2014)
- Successful global week of action (International Lead Poisoning Prevention Awareness Week) in 2013, 2014, and 2015
- New partners, including African countries, NGOs, and paint manufacturer
- ICCM4 Resolution (Oct 2015)

ICCM4 iv/2: Emerging issues Lead in Paint

1. *Welcomes* the efforts of the Global Alliance to Eliminate Lead Paint to achieve its goal to phase out lead in paint by 2020;
2. *Encourages* Governments, civil society organizations and the private sector to participate in the work of the Global Alliance to Eliminate Lead Paint and assist in achieving the above goal;
3. *Encourages* Strategic Approach stakeholders to promote and/or initiate national and/or regional discussions to address the possible establishment of effective measures, including regulation, to phase out the use of lead in paint;

GLOBAL ALLIANCE TO ELIMINATE LEAD PAINT

Introduction	Understanding the Problem	Identify the Market	Taking Action	References	Contact us
--------------	---------------------------	---------------------	---------------	------------	------------

Raising Awareness

Raising and maintaining awareness about the hazards of lead is important to stimulate action by governments, enterprises and others. It also informs individuals about how to protect themselves and their families from lead exposure. This module provides information about the International Lead Poisoning Prevention Week of Action and how any organization can plan and organize a lead-awareness campaign. It also provides examples of lead poisoning prevention campaign materials and activities.

Module I. Conducting lead awareness-raising campaigns (References)

Establishing Lead Paint Laws

Once your government is ready to take action use this module. (provided by the

Action Plan for 2015-2017

LEAD PAINT ALLIANCE

The primary goal of the Alliance is to prevent children's exposure to paints containing lead and to minimize occupational exposures to lead paint.

1. Encourage governments to enact lead paint laws
2. Encourage industry to voluntarily stop the manufacture and sale of lead paint
3. Increase awareness of the health and environmental risks posed by lead paint
4. Increase the number of Alliance partners

The image shows the cover of the document titled "Global Alliance to Eliminate Lead Paint ACTION PLAN for 2015-2016 (May 2015)". At the top, it features the logos of UNEP, the Lead Paint Alliance, and the World Health Organization. The text on the cover includes a preamble and several paragraphs detailing the plan's objectives and scope.

**Global Alliance to Eliminate Lead Paint
ACTION PLAN for 2015-2016
(May 2015)¹**

PREAMBLE:

This two-year Action Plan facilitates implementation of the long-term Business Plan of the Global Alliance to Eliminate Lead Paint (Lead Paint Alliance) by providing near-term priorities for key action areas. The Action Plan is intended to encourage and support priority activities in 2015 and 2016 by Alliance partners and other stakeholders that will help move toward the goal and objectives of the Alliance.

The primary goal of the Alliance is to prevent children's exposure to paints containing lead and to minimize occupational exposures to lead paint. Its broad objective is to achieve the phase-out of the manufacture and sale of paints containing lead and to eventually eliminate the risks that such paints pose. The Alliance is committed to efforts that support primary prevention, seeking to reduce or eliminate the conditions that give rise to environmental lead exposure before such exposures can occur.

The Business Plan of the Lead Paint Alliance was developed in response to resolution II/4/B adopted by the second session of the International Conference on Chemicals Management (ICCM) in 2009. It provides a road map describing the strategies, milestones and means of achieving the goal and overall objective of the Global Alliance to Eliminate Lead Paint, including targets for accomplishments by the year 2020. It is addressed to all persons and organizations interested in contributing to the work of the Alliance.

The Action Plan for 2015-16 highlights the need for near-term efforts, in particular by national governments around the world to phase out the use of lead paints, with special attention to eliminating lead decorative paints and in paints for other applications most likely to contribute to childhood lead exposure. New laws and regulations should establish legal limits on the lead content of these paints, by either banning lead additives and severely limiting the total amount of lead content. Such actions in countries where legal limits are not currently in place will help prevent new exposures to lead from paint, especially for children in homes and schools, where decorative lead paint is still used. Regulatory controls on other categories or uses of paint should also be considered.

The Action Plan for 2015-2016 was developed for the Lead Paint Alliance by the UN Environment Program (UNEP) and the World Health Organization (WHO), in consultation with

¹ Revised by UNEP/WHO Advisory Group for the Lead Paint Alliance on 27 September 2015.

Lead Paint Alliance – What You Can Do

- Convince your Governments -without existing legislation- to enact lead paint laws by overcoming possible barriers
- Recognise elements of success of existing laws that you could incorporate into efforts in your own country
- Raise awareness within relevant Ministries in your country
- Promote stakeholder dialogue in your country on controlling the lead content of paint involving your national paint industry and/or other stakeholders
- Input/advice/advocacy to get lead paint on relevant meetings and conference agendas e.g. XXXXXXXX, UNEA2, etc.
- Encourage governments, NGOs, and industry to become partners in the Lead Paint Alliance
-

How to Become a Partner

LEAD PAINT ALLIANCE

GLOBAL ALLIANCE TO ELIMINATE LEAD PAINT INFORMATION ON BECOMING A PARTNER

The Lead Paint Alliance is a voluntary collaborative initiative to focus and catalyse the efforts of a diverse range of stakeholders to achieve international goals to prevent children's exposure to lead from paint and to minimize occupational exposures to lead paint. The Alliance is convened under the auspices of the United Nations Environment Programme (UNEP) and the World Health Organization (WHO).

WHAT IT MEANS TO BECOME A PARTNER IN THE LEAD PAINT ALLIANCE	GOAL AND OBJECTIVE OF THE LEAD PAINT ALLIANCE
<ul style="list-style-type: none"> Making a commitment to achieving the goal and objective of the Lead Paint Alliance. Leading or assisting with the development and implementation of activities that help to achieve the goal and objective of the Lead Paint Alliance. Networking, sharing information and collaborating with other partners in the Lead Paint Alliance. Having access to information to support government efforts to establish and implement legal limits on lead paint. Working in accordance with the operational framework of the Lead Paint Alliance. Being recognized as a partner on the Lead Paint Alliance website (www.unep.org/noleadpaint). Receiving recognition for providing financial support to the Alliance. 	<p>The overall goal of the Lead Paint Alliance is to prevent children's exposure to paints containing lead and to minimize occupational exposures to lead paint. The broad objective is to phase out the manufacture and sale of paints containing lead and eventually to eliminate the risks that such paint pose.</p> <p>Broad participation is encouraged from a wide range of stakeholders, such as governments, intergovernmental organizations, non-governmental organizations, including civil society, private sector, regional bodies, philanthropic organizations, academia, media and interested experts.</p>

HOW TO BECOME A PARTNER IN THE LEAD PAINT ALLIANCE

Governments, organizations and individuals who wish to become an Alliance Partner should submit a letter of intent that states a commitment to the overall goal and objectives of the Lead Paint Alliance, and provides information on the specific experience, capabilities and activities that may be offered in support of the Lead Paint Alliance. An example letter is provided on the back of this page.

PLEASE SUBMIT THE LETTER OF INTENT TO BOTH:

<p style="text-align: center;">Head, Chemicals Branch Division of Technology, Industry and Economics United Nations Environment Programme 11-13, Chemin des Anémones CH-1219 Châtelaine, Geneva, Switzerland Fax: +41 22 797 34 60 Email: noleadpaint@unep.org</p>	<p style="text-align: center;">Director, Public Health and Environment Department of Public Health, Environmental and Social Determinants of Health World Health Organization 20, Avenue Appia CH-1211 Geneva 27 Switzerland Fax: +41 22 791 4127 Email: noleadpaint@who.int</p>
