#	RESPONSES	DATE
1	I wish the topics were really tailored to capacity enhancement for faith actors beyond networking and partnership building.	1/9/2020 12:32 PM
2	I count on you for continuing to inform us on F4E activities and developments. Please let me also express my congratulations on that successful workshop.	1/6/2020 10:22 AM
3	I wish we had more time to fully develop the group projects we created during the workshop. It is way more difficult to do this remotely.	1/6/2020 10:03 AM
4	I wish we had more time to delve deeper into the issues	1/4/2020 6:57 PM
5	I WISH MORE TIME WAS ALLOCATED FOR THE SESSIONS	1/4/2020 4:52 PM
6	Wouldn't it be nice if faith leaders and members belonging to a faith at grass root levels are brought on board during such workshops to also share what can work with them? I wish the food choices were broader, Habari café is not the best treat, but much appreciation for what you were able to offer.	1/2/2020 1:05 PM
7	On the one hand, we always seemed to be 'playing catchup' with the schedule and this was a little frustrating. On the other hand, I appreciated the fact that there was some flexibility and this allowed the facilitators to change the agenda according to the changing situation. So on balance, it worked well.	12/31/2019 11:38 AM
8	Would it not have been nice if we could have had an additional day just to work on our proposals in consultation with our facilitators.	12/29/2019 2:39 PM
9	I wish we had some indigenous knowledge practitioners to share some experiences on environment.	12/29/2019 9:14 AM
10	Wouldn't it be nice if we could establish sub-regional teams Wouldn't it be nice if	12/28/2019 2:55 PM
11	It would be nice if Faith for Earth would create another forum where evaluation can be done so to understand how people took up their roles. I wish indigenous groups can be brought on board so that faith and culture can be integrated to better care for our common home.	12/28/2019 11:27 AM
12	I wish the workshop was scheduled for 3 days as opposed to 2.5 days	12/27/2019 7:59 PM
13	Overall, the workshop was very good	12/27/2019 8:09 AM
14	It would be nice if the facilitators know more about FBOs and how they can work for the environment. It was also expected that participants would receive more input (learning) from the resource persons, rather than having to spend considerable amount of time giving output (producing work plans, lots of group discussions).	12/27/2019 6:57 AM
15	I wish there would be some evaluations of presentations of groups.	12/26/2019 5:48 PM
16	I wish that such workshops were offered more often so that we really form a strong sense of belonging and partnership. Sometimes we can't grasp everything in a few days and need a refresher course to fully grasp the previous workshop. Also UN should have a department for Religion and Peace fully formed and operating on its own. Also I wish we could have more access to information and UN premises so that we may blend into the team and feel ownership of Faith led initiatives in environment.	12/26/2019 3:39 PM
17	I wish we had more time for the discussions and experience sharing. Wouldn't it be nice to have more than 03 days in the future for such workshop.	12/26/2019 1:27 PM
18	Be more strict on the time allocated to each person to talk. Also, try to insist a little bit more on scientific and environmental facts.	12/26/2019 1:04 PM
19	I wish instructions were clearer from the start of the workshop, I liked the whole workshop, but sometimes why we're doing certain activities weren't clear.	12/23/2019 8:50 PM
20	How to improve the next workshop if there will be any, we need to involve more religious leaders. While many participants came from UNEP, would it be nice if they clearly say what they are capable of funding or implementing. It seems to me they also in the mix.	12/23/2019 6:21 PM

2	I want to maintain contact with the Faith for Earth initiative and with colleagues I met in Nairobi - in particular with you dear lyad -- so that to engage a multi-stakeholder dialogue with the Mediterranean Commission on Sustainable Development (MCSD); we have enough time in front of us to draft a paper and prepare a specific session of the next meeting of the MCSD (June 2021).		1/6/2020 10:22 AM
3	Faith4Earth is a great forum for creating synergy among FBOs and coordination of faith-based environmental initiatives. It should regularly convene similar meetings of FBOs and the UN.		1/6/2020 10:03 AM

8	I would love to see peace parks developed in the 26 countries and beyond. Faith4Earth could help in advocacy and resource mobilization.		12/29/2019 2:39 PM

10	Project identification and design Stakeholder mobilization Resource mobilization		12/28/2019 2:55 PM

Facilitate video conferencing for partners and amongst ourselves to be able to discuss issues in details without having to travel or meet in person.		12/26/2019 3:39 PM
17	It would be interesting to receive more manuals on good practices from FBOs and churches/temples/mosks, etc. that have been able to succeed in this initiative. It will inspire the starting FBOs or confessions. It will also be nice to have a french version of such documents for french speaking countries.		12/26/2019 1:27 PM
18	We could become a partner, and use both networks and platforms to achieve our common goal: protect and restore our planet.		12/26/2019 1:04 PM
