28.05.2020 No. *13-10/2-113*

Mr. Sveinung Rotevatn
Minister of Climate and Environment of Norway
UN Environment Programme Secretariat

Subject: Regarding of preparation of the ministerial declaration for the fifth United Nations Assembly

Herewith the Ministry of Agriculture, Regional Development and Environment of the Republic of Moldova avails itself of this opportunity to extend its compliments to the Minister of Climate and Environment of Norway.

Following your letter No. 19/1039/24/04/2020 regarding the providing of country's commitments for an ambitious declaration from all Environment Ministers, I would like to support this initiative.

The efficient implementation of the Sustainable Development Goals (SDGs) is directly conditioned by the levels of its financing by the member states.

In this context, there is an imperative need to review how this area is financed and to streamline the budgetary allocations according to the priorities stipulated in the policy documents for environment protection and green economy promotion of the state members.

It is essential for the state UNEP members to enhance the system for SDG's implementation monitoring and evaluation, in order to be able to intervene in a timely manner with efficient actions, when needed. The efficient implementation of SDG's requires a joint effort, through the development of comprehensive and sustainable partnerships in order to address environmental and climate change challenges.

The 2030 Agenda is the Agenda of all for all and especially for people furthest left behind.

Looking forward to a fruitful cooperation in the future.

Sincerely,
Ion PERJU
Minister of Agriculture,
Regional Development and Environment
