Please substitute the following word in the paragraph of page 7:

The mechanism described in Chapter 3 will cover: the differentiation process itself; in this context the Secretariat proposes **three** options that have been developed on the basis of countries' indications as provided during the precedent Meetings, relevant international literature, MEAs and most recent developments occurred in the management of ecosystems at the global level in the framework of UNEP and, at regional level, in the framework of the application of the Ecosystem Approach; transfer of know how and technology; Monitoring and evaluation; and need for governance and synergy among regional instruments and initiatives related to pollution reduction.

With the following:

The mechanism described in Chapter 3 will cover: the differentiation process itself; in this context the Secretariat proposes **two** options that have been developed on the basis of countries' indications as provided during the precedent Meetings, relevant international literature, MEAs and most recent developments occurred in the management of ecosystems at the global level in the framework of UNEP and, at regional level, in the framework of the application of the Ecosystem Approach; transfer of know how and technology; Monitoring and evaluation; and need for governance and synergy among regional instruments and initiatives related to pollution reduction.
