MEDITERRANEAN ACTION PLAN

Integrated Correspondence Groups of GES and Targets Meeting

Athens (Greece), 17-19 February 2014

CORRIGENDUM

Secretariat Analysis of Common Indicators

TABLE I: Summary of Secretariat Analysis on common indicators

On page 9, Operational Objective 10.1 should read as follows:

Operational objective	Common Indicator	GES	Targets	Similar indicators from other Regional Seas Conventions
10.1 The impacts related to properties and quantities of marine litter in the marine and coastal environment are minimized¹	10.1.1 Trends in the amount of litter washed ashore and/or deposited on coastlines, including analysis of its composition, spatial distribution and, where possible, source	Number/amount of marine litter items on the coastline do not have negative impacts on human health, marine life and ecosystem services	State Decreasing trend in the number of/amount of marine litter (items) deposited on the coast	OSPAR common indicator: "Beach litter". RSCAP has "Quantification of beach litter items" in its coordinated set of indicators.
	10.1.2 Trends in amounts of litter in the water column, including micro-plastics, and on the seafloor	Number/amount of marine litter items in the water surface and the seafloor do not have negative impacts on human health, marine life, ecosystem services and do not create risk to navigation	State Decreasing trend in the number/amount of marine litter items in the water surface and the seafloor	

¹ Baseline is needed to be developed in line with the Marine Litter Regional Plan by COP19
